

ILLINOIS AGRICULTURAL MENTAL HEALTH VOUCHER PROGRAM

IT TAKES STRENGTH TO ASK FOR HELP

The Illinois Agricultural Mental Health Voucher Program allows agricultural producers and their families to seek help free of charge from a certified mental health professional.

Our goal is to provide Illinois agricultural producers with mental health resources, access to trained professionals, and reduce barriers for those seeking help.

PROGRAM DETAILS

1. Three free mental health sessions.

Farmers and their families are eligible for three mental health vouchers.

2. No insurance required

Illinois Extension and your participating provider work directly together, which removes the need for any insurance involvement.

3. Services are provided in-person or online.

Sessions can be redeemed with participating providers located across the state of Illinois.
